

## TrumpChange (TCHNG)

“Make Your Wallet Great Again”

---

### Introduction

In a world dominated by serious investments and complicated financial systems, we thought, "Why not inject some humor and a dash of personality into crypto?" Introducing **TrumpChange (TCHNG)** — “Sounds like CH-CHING!”, a meme coin inspired by the one and only Donald J. Trump, the most crypto friendly president in history. With its slogan, "**Make Your Wallet Great Again,**" TrumpChange aims to bring fun, community, and the most **beautiful** gains in the crypto world.

---

### What is TrumpChange?

TrumpChange is an **ERC-20 token** on the Ethereum mainnet. TrumpChange was created for ease-of-use, to unite like-minded cryptocurrency enthusiasts, meme lovers, and value seekers. Whether you're here for the memes, the potential profits, or to own a piece of internet gold, TrumpChange has something for everyone. It is a deflationary\* meme coin token (we will be dynamically burning tokens based on transaction volume, this is something we plan to vote on as a community)

At its core, TrumpChange represents more than just a coin; it's a community-driven movement!

### **Tokenomics: The Economics of Greatness**

We've structured TrumpChange with a tokenomics model that's both fun and functional:

- **Total Supply: 100,000,004,547 TCHNG** (~One Hundred Billion)

#### **Allocation:**

- **70% Public Sale & Liquidity:** For trading and public participation
  - **15% Marketing, Airdrops, & Partnerships:** To fuel growth, spread the word, and reward early adopters, rewards for contests, and of course to fund the airdrops!
  - **15% Founders' Allocation:** Split equally among the creators. (Who will strategically lock amounts of tokens dynamically based on transaction volume)
- **Burn Mechanism:** An amount of TrumpChange will be burned regularly to make TrumpChange scarcer over time. Supply goes down, value goes up. \*We plan on figuring out the right amount as a community. This is truly a community project.
- 

### **Features That Make TrumpChange Great, Again and Again:**

#### **Fixed Supply**

The supply is fixed. With the burn mechanics in place, it makes TrumpChange deflationary by nature. (That means no inflation, EVER, and you don't have to take my word for it, it's proven!)

#### **Burnable Tokens**

Burn, baby, burn! With every transaction, a portion of TrumpChange will be burned, creating scarcity and increasing the value of every remaining token. The team will be monitoring and analyzing transactions and pledge provide a plan on a burn regularly burning tokens.
