

## TrumpChange Whitepaper v1.0 (December 2024)

### TrumpChange (TCHNG)

**“Make Your Wallet Great Again”**

---

#### Introduction

In a world dominated by complex financial systems, simplicity and community are key. Enter **TrumpChange (TCHNG)** — a meme coin inspired by Donald J. Trump, the most crypto-friendly president in history.

TrumpChange offers a secure, user-friendly token that is borderless, trustless, and driven by its community. Our slogan, "**Make Your Wallet Great Again,**" reflects our mission to deliver fun, unity, and exceptional potential gains to the crypto world.

---

## What is TrumpChange?

TrumpChange is an **ERC-20 token** built on the Ethereum mainnet. Designed to appeal to cryptocurrency enthusiasts, meme lovers, and value seekers alike, TrumpChange is deflationary with a fixed supply, ensuring scarcity and value preservation.

At its heart, TrumpChange represents a **community-driven movement** that's as much about memes as it is about making history.

---

## Tokenomics: The Economics of Greatness

**Total Supply: 100,000,004,547 TCHNG (~100 billion)**

### Allocation:

- **70% Public Sale & Liquidity:** Ensures trading access and broad public participation.
- **15% Marketing, Airdrops, & Partnerships:** Promotes growth, incentivizes early adopters, and funds airdrops.
- **15% Founders' Allocation:** Equally distributed among creators, with strategic token locks based on transaction volume.

### Burn Mechanism:

To enhance scarcity, a portion of TrumpChange will be regularly burned, reducing supply and increasing value. The community will help determine the optimal burn strategy, making this a **true community project**.

---

## Features That Make TrumpChange Great

### Fixed Supply:

With a capped supply and deflationary mechanics, TrumpChange eliminates inflation risks.

**Burnable Tokens:** Regular burns create scarcity, driving value for holders. The team will adapt the burn plan to best serve the community's interests.

## Roadmap to Greatness

### Phase 1: Build the Wall (Token Launch)

- Deploy the TrumpChange smart contract on Ethereum.
- Establish a robust liquidity pool on Uniswap V3.
- Launch a user-friendly website: [trumpchangecoin.com](https://trumpchangecoin.com).
- Build a social media presence (Twitter, Discord, Telegram, Reddit). Use hashtags like #TrumpChange, #TrumpChangeCoin, #TCHNG, and #MakeWalletsGreatAgain.

### Phase 2: Meme Army Mobilization

- Host meme contests with cryptocurrency rewards.
- Launch two planned airdrops:
  - **New Year's Airdrop (Jan 1–6, 2025):** 4,500,000 TCHNG.
  - **Inauguration Day Airdrop (Jan 20, 2025):** 47,000,000 TCHNG - in honor of Donald Trump being the 47th President of the United States.
- Partner with influencers to amplify outreach.
- Foster a vibrant, engaged community.

### Phase 3: Tremendous Growth

- Secure listings on CoinMarketCap and CoinGecko.
- Introduce staking opportunities for holders.
- Collaborate with other meme tokens for cross-community initiatives.
- Develop exclusive TrumpChange NFTs, including winning memes.

### Phase 4: The Moonshot

- Explore centralized exchange listings (e.g., KuCoin).
- Pursue global adoption and widespread recognition.

---

## Why TrumpChange?

### Relatable:

Turn small investments into opportunities for financial independence.

### Accessible:

Low barriers to entry make it easy for anyone to join the movement.

### Fun:

Whether you're trading, holding, or memeing, TrumpChange ensures excitement in every aspect.
